

Sprint 2 Plan
GiG
Giggle
10/19/2016

Goal: Create layout with examples for Gigs, Music, and Photos page

Task listing, organized by user story:

User story 1: As a user, I want a gig page, so that I can share details about my gigs. [10.5]

- Task 1: Use Google Calendar API to insert an agenda view with description, datetime, and location. (8 hours)

User story 2: As a user, I want a music page, so that people can listen to (up to five of) my songs. [10.5]

- Task 1: Use Spotify/Soundcloud/Bandcamp APIs to import songs. (7 hours)
- Task 2: Implement media player to play songs. (13 hours)
- Task 3: Place a 5-song limit per user. (2 hours)

User story 3: As a user, I want a photos page, so that fans can view the photos I share. [10.5]

- Task 1: Find and utilize a photoviewing API. (6 hours)
- Task 2: Organize photos and display them in a grid view. (5 hours)

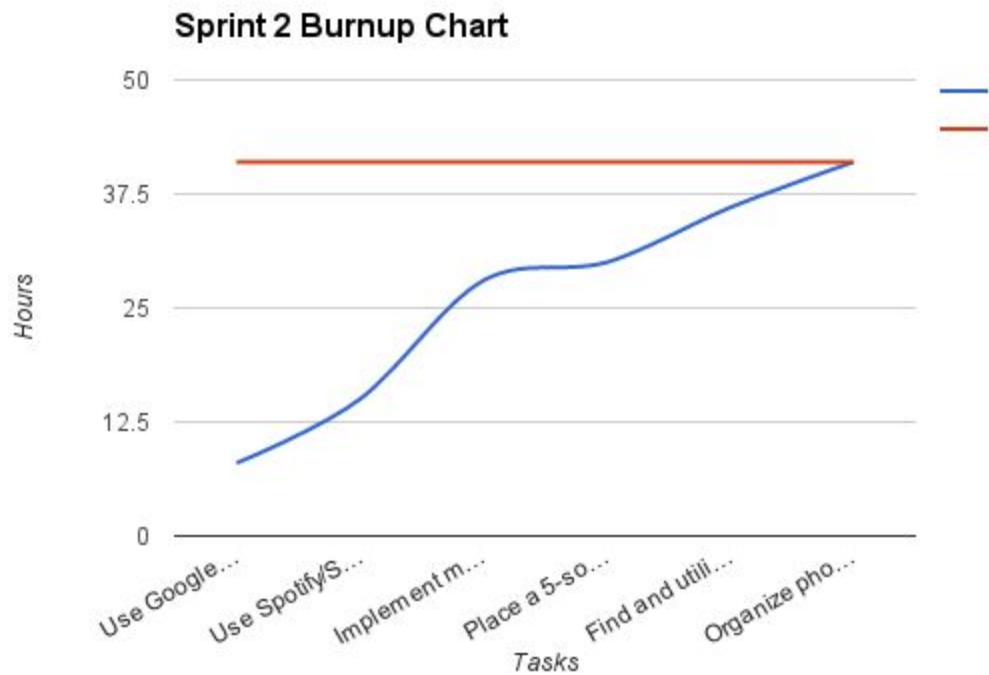

Team Roles:

- Denzel Mapp (Product Owner)
- Drake Pitts (Team)
- Jan Lantaca (Team)
- Jordan Jones (Team)
- Austin Brown (Scrum 2 Master)
