Sprint 1 Plan
GiG
GiGgle
10/5/16

Goal: Implement and Design Band Profile Page

Task listing, organized by user story:

User Story 1: As a user, I want to create a profile page so that I can describe my group and offer links to music files, gigs, and other media.

Task 1: create main page with buttons and links to music, gig, and media links (6 hours)

Task 2: create media page (7 hours)

User Story 2: As a user, I want a news feed so that I can post updates on my main page.

Task 1: create feed that bands can update (7 hours)

User Story 3: As a user, I want a music feature that displays audio clips of my music and links to third party music sites (i.e soundcloud, spotify)

Task 1: create music page with five 30 second clips with links to soundcloud, bandcamp, spotify, etc. (13 hours)

User Story 4: As a user, I want a GiG button so that I can post upcoming music events.

Task 1: create GiG page that opens up a Google calendar with band's upcoming shows (8 hours)

Team Roles:

Denzel Mapp (Product Owner)
Jan Lantaca (Team)
Jordan Jones (Scrum 1 Master)
Austin Brown (Team)

Initial Task Assignment:

Denzel Mapp (main page)
Jan Lantaca (music page)
Jordan Jones (GiG page)
Austin Brown (media page)

Initial Burnup Chart:

Sprint1_Burn Up Chart

Initial Scrum Board:
