Sprint 3 Plan
GiG
Giggle
11/07/2016

Goal: Host multiple accounts with database with search capabilities, also users can upload information/files when they create an account.

Task listing, organized by user story:

User story 1: As a user, I want a search bar to look up other artist, so that I can find artists in the app. (10.5)
- Task 1: Use database to query user id associated with usernames and return that profile. (9 hours)

User story 2: As a user, I want to be able to follow other bands, so that I can access their pages easier than searching. (18)
- Task 1: Use database to maintain a list of user ids of followed bands in the record of each user. (7 hours)
- Task 2: Add button to profile page for users to follow the band, adding their user id to the list of Task 1. (5 hours)
- Task 3: Using list of Task 1, populate a ListView of links to band profiles. (4 hours)

User story 3: As a user, I want to be able to upload information and files, so that my fans can view them. (10.5)
- Task 1: Use database to upload music and photos. (6 hours)
- Task 2: Use separate activity to make setup/edit profile mode. (5 hours)

Team Roles:
- Denzel Mapp (Product Owner)
- Drake Pitts (Team)
- Jan Lantaca (Scrum 3 Master)
- Jordan Jones (Team)
- Austin Brown (Team)

Initial Task Assignment:
- Denzel Mapp (File upload)
- Drake Pitts (Search/Follow)
- Jan Lantaca (File upload)
- Jordan Jones (Search/Follow)
- Austin Brown (Search/Follow)

Initial Burnup Chart:

Initial Scrum Board:

Product Backlog	To Do	In Progress	Done
Content Design on each Tab	Database (Firebase)	Profile Page	Navigatiable app
News Feed [END]	Search Bar	Music Feature Play Button	Basic app
Social Media Button (twitter, fb)	Follow Feature	GiG Page for events / calendar	Basic design
Commenting	Add a card…	Add a card…	Sign in/out
Liking			Add a card…
Band recommendations			
"Performed with"			
Add a card…			

Scrum Times:

- Tuesdays 3:30 pm
- Wednesdays 2:30 pm
- Sundays 12 pm
